

and under what circumstances, your child can return to school. It is important for parents to follow these guidelines in order to keep our infants happy and healthy.

Cleaning and Sanitizing

Our staff works hard each day to make sure we do not pass illnesses back and forth. Each day the toys are sprayed down with a bleach solution and left to air dry overnight. Toys and rattles that are particularly "slobbery" will be taken aside and washed down as needed.

We ask that older siblings stay at the door of the infant room. Children from other classrooms may be exposing our babies to different germs. It is a lot of fun to visit their baby, but it is difficult to keep them from playing with and climbing on the toys. ☺

I know this is a lot of information to take in all at once. We will do our best to explain policies as they come up in daily activities as well. If you have any questions or concerns, please do not hesitate to contact us. We are honored that you trust your child with us!!
